

GeoConnect

Mobile assets tracking
and fleet management

Based on GPS positioning and GPRS wireless communication, our solution allows you to manage your mobile assets in real-time from any computer connected to the Internet.

Our solution ensures you a fast return on investment, giving you all the information you need to improve your business productivity.

GeoConnect software system organizes data into customizable reports and graphs to enable you to identify cost saving or income generating opportunities.

Track your vehicles
in real-time and display trip history

Date	Time	Location	Status
11/04/2004	10:00:00	Paris	Stopped
11/04/2004	10:05:00	Paris	Moving
11/04/2004	10:10:00	Paris	Stopped
11/04/2004	10:15:00	Paris	Moving
11/04/2004	10:20:00	Paris	Stopped
11/04/2004	10:25:00	Paris	Moving
11/04/2004	10:30:00	Paris	Stopped
11/04/2004	10:35:00	Paris	Moving
11/04/2004	10:40:00	Paris	Stopped
11/04/2004	10:45:00	Paris	Moving
11/04/2004	10:50:00	Paris	Stopped
11/04/2004	10:55:00	Paris	Moving
11/04/2004	11:00:00	Paris	Stopped

Display detailed activity reports

- ▶ Control your fleet activity in the field
- ▶ Maximise your vehicles utilization
- ▶ Increase your mobile staff efficiency
- ▶ Eliminate paper time sheets and time sheet fraud
- ▶ Improve driver and content security
- ▶ Improve asset loss recovery and prevention
- ▶ Document actual routes driven and stops made
